FINANCIAL 15 SPLIT CORP. II
SEMI-ANNUAL REPORT
(UNAUDITED)

II

This report may contain forward-looking statements about the Company. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as “expects”, “anticipates”, “intends”, “plans”, “believes”, “estimates” or negative versions thereof and similar expressions. In addition, any statement that may be made concerning future performance, strategies or prospects, and possible future Company action, is also forward-looking. Forward-looking statements are based on current expectations and projections about future events and are inherently subject to, among other things, risks, uncertainties and assumptions about the Company and economic factors.

Forward-looking statements are not guarantees of future performance, and actual events and results could differ materially from those expressed or implied in any forward-looking statements made by the Company. Any number of important factors could contribute to any divergence between what is anticipated and what actually occurs, including, but not limited to, general economic, political and market factors, interest and foreign exchange rates, global equity and capital markets, business competition, technology change, changes in government regulations, unexpected judicial or regulatory proceedings, and catastrophic events.

The above-mentioned list of important factors is not exhaustive. You should consider these and other factors carefully before making any investment decisions and you should avoid placing undue reliance on forward-looking statements. While the Company currently anticipates that subsequent events and developments may cause the Company’s views to change, the Company does not undertake to update any forward-looking statements.

FINANCIAL 15 SPLIT CORP. II
SEMI-ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE
MAY 31, 2011

This is the semi-annual Management Report of Fund Performance (MRFP) for the period ended May 31, 2011. This MRFP contains financial highlights but does not contain the complete financial statements of the Company. The semi-annual financial statements and accompanying notes are attached to this report.

Investors may also obtain a copy of the Company's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure by visiting our website at www.financial15.com or by writing to the Company at Investor Relations, Royal Trust Tower, 77 King Street West, P.O. Box 341, Toronto, Ontario, M5K 1K7.

These reports are available to view and download at www.financial15.com or www.sedar.com.

INVESTMENT OBJECTIVES AND STRATEGIES

Financial 15 Split Corp. II invests primarily in a portfolio of commons shares, which will include each of the 15 financial services companies listed below:

Canadian issuers	U.S. issuers
Bank of Montreal	Bank of America Corp.
The Bank of Nova Scotia	Citigroup Inc.
Canadian Imperial Bank of Commerce	Goldman Sachs Group Inc.
CI Financial Corp.	JP Morgan Chase & Co.
Great West Lifeco Inc.	Wells Fargo & Co.
Manulife Financial Corporation	
National Bank of Canada	
Royal Bank of Canada	
Sun Life Financial Inc.	
The Toronto-Dominion Bank	

The Company may also invest up to 15% of the Net Assets in equity securities of issuers other than the 15 financial services companies listed above. In order to supplement the dividends received on the Portfolio and to reduce risk, the Company will from time to time write covered call options in respect of some or all of the common shares in the portfolio.

The Company offers two types of shares:

Preferred shares

The investment objectives with respect to the Preferred shares are as follows:

1. To provide holders with fixed cumulative preferential monthly cash dividends in the amount of \$0.04375 per Preferred share to yield 5.25% per annum on the original issue price; and
2. On or about December 1, 2014 (the termination date) to pay holders the original issue price (\$10) of the Preferred shares.

Class A shares

The investment objectives with respect to the Class A shares are as follows:

1. To provide holders with regular monthly cash dividends initially targeted to be \$0.10 per Capital share to yield 8% per annum on the original issue price; and
2. On or about December 1, 2014 (the termination date), to pay holders at least the original issue price of those shares (\$15).

RISK

The risks of investing in the Company remain as discussed in the Annual Information form dated February 23, 2011. In addition, Note 3 of the semi-annual financial statements ("Management of Risk") contains disclosure on specific types of risks related to the financial investments held by the Company.

RESULTS OF OPERATIONS

The six month period ended May 31, 2011 reflected a continuation of the global economic and market recovery although there were clear signs that the pace of the recovery had begun to moderate.

A number of global macro events during the period appeared to have an adverse impact on the rate of growth in the North American economies. Energy prices increased approximately 20% during the period, in part due to the concerns over potential supply declines due to the mid east conflicts, particularly in Libya. The increases in energy combined with rising food costs during the period fueled global inflationary pressures causing many countries around the world to increase interest rates in an attempt to slow growth and bring down inflation levels. In particular, China increased rates numerous times during the period in an attempt to reign in inflation. The Japanese tsunami disaster had a significant impact on the global supply chain, particularly in the auto and technology sectors resulting in decreased production of key components from this region. Continuing concerns over the sovereign debt of Greece, Ireland, Spain and Italy have weighed on European growth and sparked fears of a major currency crisis. Finally as the period came to a close, market participants increasingly began to focus on the potential market impact of the scheduled June 30 termination of the U.S. Federal Reserve's \$600 billion quantitative easing program, the raising of the U.S. debt ceiling and the other policy initiatives that would be required to address the large and growing U.S. annual deficits.

Despite these significant macro events, the Canadian economy continues to rank very high among the developed economies. This strength continues to be reflected in solid GDP growth, lower unemployment rates and a relatively strong housing market that has not been plagued by the same issues that have been prevalent in the U.S. housing market. The recent election of a Conservative majority government in Canada should also help political and economic stability over the next several years. In contrast, the U.S. economy continues to struggle with a weak jobs and housing market as well as very significant fiscal challenges at both the federal and state level.

Against this backdrop, the market prices of the Canadian financial services stocks were generally higher but were offset by a weakening in U.S. financial services stocks. The Net Asset value per

unit (consisting of one Preferred share and one Class A share) finished \$0.25 higher at \$14.85 as at May 31, 2011. Preferred shareholders received distributions at the regular targeted rates. As a result of the decline in the Net Asset Value below \$15 during April and May, Class A shareholders received only 4 distributions for a total of \$0.40 per share.

The portfolio has generally retained a 2/3 weighting in Canadian financial services stocks versus the U.S. financial services stocks during the year. At the current time, the valuations of the companies in the portfolio generally remain at very reasonable levels when measured by price to earnings ratios and dividend yields are expected to act as a major support at these current market prices, especially for the Canadian financial services stocks. The ongoing macro shocks as discussed above have provided periods of increased market volatility which creates opportunities for the Company to add higher option premiums through the covered call writing program.

DISTRIBUTIONS

Class A shares - Distributions

Class A shareholders are entitled to receive regular monthly cash dividends initially targeted to be \$0.10 per Class A Share to yield 8.0% per annum on the original issue price. As a result of the decline in the Net Asset Value below \$15 during the period, 4 monthly distributions were paid for a total of \$0.40 per share.

Cumulative Distributions since inception

Preferred shares - Distributions

Preferred shareholders are entitled to fixed, cumulative preferential monthly cash dividends in the amount of \$0.04375 per Preferred Share to yield 5.25% per annum on the original issue price. Distributions paid during the period were at the fixed rate for a total \$0.2625 per share.

Cumulative Distributions since inception

RECENT DEVELOPMENTS

At its January 2011 meeting, the Canadian Accounting Standards Board (AcSb) decided to extend the deferral of mandatory adoption of IFRS for Investment Companies to fiscal years beginning on or after January 1, 2013. The decision is in response to the International Accounting Standards Board's announcement in late 2010 that its Investment Company project is delayed and will not likely be issued before January 1, 2012, which is the current date of the mandatory adoption of IFRS for these entities.

The Company expects to report its financial results for the six month period ended May 31, 2014 prepared on an IFRS basis. The Company will also provide comparative data on an IFRS basis, including an operating balance sheet as at December 1, 2013.

The Company has not identified any changes that will impact Net Asset Value per unit as a result of the changeover to IFRS. The impact of IFRS on accounting policies and implementation decisions will mainly be in the areas of additional note disclosure and potentially different presentation of shareholder interests and other items in the financial statements of the Company. However this determination is subject to change as the Company finalizes its assessment of potential IFRS differences and as new standards are issued prior to the Company's adoption of IFRS.

RELATED PARTY TRANSACTIONS

Quadravest Capital Management Inc. ("Quadravest") as Investment Manager and Manager earn fees from the Company as described below in the Management Fees section.

MANAGEMENT FEES

Pursuant to the terms of the investment management agreement, Quadravest is entitled to a base management fee payable in arrears at an annual rate equal to 0.65% of the transactional net assets of the Company, which include the outstanding Preferred shares, calculated as at each monthly valuation date. In addition, Quadravest is entitled to receive a performance fee subject to the achievement of certain pre-established total return thresholds.

Pursuant to the administration agreement, Quadravest is entitled to an administration fee payable monthly in arrears at an annual rate equal to 0.1% of the transactional net assets of the Company, which includes the outstanding Preferred shares, calculated as at each monthly valuation date and an amount equal to the service fee payable to dealers on the Class A shares at a rate of 0.50% per annum. No service fee will be paid in any calendar quarter if regular dividends are not paid to holders of Class A shares in respect of each month in such calendar quarter.

Total management fees of \$324,617 paid for the period ended May 31, 2011 include the base management fee and the administration fee. The base management fee was used by Quadravest to provide investment analysis, make investment decisions, and make brokerage arrangements for the purchase and sale of securities including the covered call writing program. The administration fee was used to provide or arrange administrative services required by the Company which includes all operational services, financial accounting, shareholder reporting and regulatory reporting.

FINANCIAL HIGHLIGHTS

The following tables show selected financial information about the Company and are intended to help you understand the Company's financial performance. This information is derived from the Company's semi-annual financial statements and previous annual audited financial statements. The Net Assets included in the Net Assets per unit table is from the Company's financial statements and calculated using bid prices since November 30, 2007. The Net Asset Value included in the Ratios/Supplemental data Table is for Transactional pricing purposes and calculated using closing prices (see Note 2 in the financial statements).

The Company's Net Assets per unit

	May 31, 2011	2010	Periods ended November 30			
		2009	2008	2007	2006	
Net assets per unit, beginning of period ⁽¹⁾	14.60	15.30	13.13	23.77	26.67	25.45
Increase (decrease) from operations						
Total revenue	0.21	0.44	0.58	0.84	0.82	0.69

Realized gains (losses) for the period	(0.57)	(0.33)	(0.85)	0.17	0.57	2.01
Unrealized gains (losses) for the period	1.36	0.37	3.45	(9.78)	(2.15)	0.86
Total increase (decrease) from operations ⁽²⁾	<u>0.91</u>	<u>0.33</u>	<u>3.04</u>	<u>(8.99)</u>	<u>(1.11)</u>	<u>3.20</u>
Distributions ⁽³⁾						
Taxable Dividends	(0.66)	(1.03)	(0.93)	(1.44)	(0.84)	(0.53)
Capital Gains	-	-	-	(0.19)	(0.88)	(1.45)
Total annual distributions	<u>(0.66)</u>	<u>(1.03)</u>	<u>(0.93)</u>	<u>(1.63)</u>	<u>(1.72)</u>	<u>(1.98)</u>
Net assets per unit at end of period	14.85	14.60	15.30	13.13	23.77	26.67
Net assets per Preferred share	10.00	10.00	10.00	10.00	10.00	10.00
Net assets per Class A share	<u>4.85</u>	<u>4.60</u>	<u>5.30</u>	<u>3.13</u>	<u>13.77</u>	<u>16.67</u>
Net assets per unit at end of period	14.85	14.60	15.30	13.13	23.77	26.67

- (1) Net Assets per unit is the difference between the aggregate value of the assets of the Company and the aggregate value of the liabilities excluding the Preferred shares of the Company on that date divided by the number of units then outstanding
- (2) Total increase (decrease) from operations is before the payment of Preferred and Class A share distributions and is calculated based on the weighted average number of units outstanding during the period
- (3) Distributions to Preferred shares and Class A shares are based on the number of Preferred shares and Class A shares outstanding on the record date for each distribution and were paid in cash. Characterization of distributions is based on the tax treatment that is received by investors.

Portfolio turnover rate ⁽⁵⁾	11.7%	5.9%	28.2%	0.7%	16.10%	22.9%
Trading expense ratio ⁽⁶⁾	0.02%	0.03%	0.12%	0.02%	0.04%	0.04%
Closing market price (TSX):						
Preferred shares	\$10.23	\$10.06	\$9.31	\$5.63	\$9.98	\$10.74
Closing market price (TSX):						
Class A shares	\$5.07	\$4.10	\$6.01	\$3.61	\$12.67	\$15.15

(1) This information is provided as at May 31 or November 30, as applicable.

(2) A separate base management expense ratio has been presented to reflect the normal operating expenses of the Company excluding the one time initial offering expenses and performance fees. Management expense ratio is based on total expenses for the stated period and is expressed as an annualized percentage of average net assets during the period.

(3) Performance fees occur in periods in which the total return per unit exceeds a pre established threshold.

(4) Management expense ratio for Class A shares is based on the requirements of National Instrument 81-106. This policy requires that all Split share companies produce an expense ratio which allocates all operating expenses of the Company, all distributions on Preferred shares and all issuance costs to the Class A shares and expresses this as an annualized percentage of net assets applicable only to the Class A shares during the period. The management expense ratio per Class A share should not be interpreted as the required return necessary for the Company or the Class A share to cover the operating expenses of the Company. This calculation is based only on a portion of the Company's assets whereas the Company utilizes its entire assets to generate investment returns. Management believes that the base management expense ratio per unit disclosed in the table above is the most representative ratio in assessing the ongoing efficiency of the administration of the Company, making comparisons to the expense ratios of single unit mutual funds or determining the minimum investment returns necessary by the Company to achieve growth in Net Assets per unit.

(5) The Company's portfolio turnover rate indicates how actively the Company's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Company buying and selling all of the securities in its portfolio once in the course of the year. The Company employs a covered call writing strategy which can cause the portfolio turnover rate to be higher than conventional mutual funds. The higher the Company's portfolio turnover rate in a year, the greater the trading costs payable by the Company in the year and the greater chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of the Company.

(6) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an semi-annualized percentage of average net assets during the period.

PAST PERFORMANCE

The past performance of 1) the Net Asset Value per unit; 2) the Preferred share on Net Asset Value basis; and 3) the Class A share on a Net Asset Value basis for each period since inception are presented in the bar charts below. Each bar in the chart reflects the change in percentage terms of how a unit, a Preferred share or a Class A share would have increased or decreased during the applicable period. In respect to the charts displayed below, please note the following:

- The performance information shown assumes that all cash distributions made by the Company during the periods shown were reinvested in the applicable additional securities of the Company,
- The performance information does not take into account sales, redemption, distribution or other optional charges that would have reduced returns or performance; and,
- Past performance of the Company does not necessarily indicate how it will perform in the future.

MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL REPORTING

The financial statements of Financial 15 Split Corp. II (the "Company") and all the information in this semi-annual report are the responsibility of management and have been approved by the Board of Directors of the Company.

The Company maintains appropriate procedures to ensure that relevant and reliable financial information is produced. Statements have been prepared in accordance with Canadian generally accepted accounting principles and may include certain amounts that are based on estimates and judgments. The significant accounting policies applicable to the Company are described in Note 2 to the financial statements.

The Board of Directors of the Company is responsible for ensuring that management fulfills its responsibilities for financial reporting and has reviewed and approved these financial statements.

The Company's independent auditors have not performed a review of these semi annual financial statements in accordance with standards established by the Canadian Institute of Chartered Accountants.

FINANCIAL 15 SPLIT CORP. II

NOTES TO FINANCIAL STATEMENTS

FOR THE SIX MONTH PERIOD ENDED MAY 31, 2011 AND 2010 (UNAUDITED)

1. Incorporation

Financial 15 Split II Corp. (the “Company”) is a mutual fund corporation established under the laws of the Province of Ontario on September 3, 2004 that began investment operations on October 15, 2004. The manager and the investment manager of the Company is Quadravest Capital Management Inc. (“Quadravest”). All Preferred shares and Class A shares outstanding on December 1, 2014, the termination date of the Company, will be redeemed by the Company on that date.

2. Summary of significant accounting policies

These financial statements, prepared in accordance with Canadian generally accepted accounting principles (“GAAP”), include estimates and assumptions by management that affect the reported amount of assets, liabilities, income and expenses during the reporting years. Actual results could differ from these estimates.

The following is a summary of the significant accounting policies followed by the Company.

Valuation of investments

Investments are categorized as held for trading and are recorded at fair value for purposes of determining the Net Assets per unit reflected in the financial statements.

The fair value of investments as at the financial reporting date is determined as follows:

- Shares or other securities for which market quotations are readily available are valued at the closing bid price
- Call options written are valued at closing ask prices as reported on recognized exchanges
- Fixed income investments are based on the average bid quotations from recognized dealers

National Instrument 81-106 (“NI 81-106”) requires an investment fund to calculate its Net Asset Value for the purposes of any purchases or redemption of units based on the fair value of the investment fund’s assets and liabilities (Net Asset Value or NAV).

The fair value of investments for purposes of calculating the bi monthly Net Asset Value used for the purposes of calculating the price paid on any redemptions received is determined as follows:

- Shares or other securities for which market quotations are readily available are valued at the last traded market price
- Call options written are valued at the last traded prices as reported on recognized exchanges
- Fixed income investments are based on the average bid quotations from recognized dealers

In accordance with NI 81-106, the Net Asset Value per unit is compared to the Net Assets per unit and the difference is required to be disclosed in the notes to the financial statements. The following table is presented to show the differences between these amounts:

FINANCIAL 15 SPLIT CORP. II
NOTES TO FINANCIAL STATEMENTSFOR THE SIX MONTH PERIOD ENDED MAY 31, 2011 AND 2010 (UNAUDITED)

	Net Assets (GAAP) per unit	Difference	Net Asset Value (Published NAV) per unit
May 31, 2011	\$14.85	\$0.01	\$14.86
November 30, 2010	\$14.60	\$0.01	\$14.61

Transaction costs

- Transaction costs, such as brokerage commissions, incurred in the purchase and sale of securities by the Company are recognized as an expense in the Statement of Operations and Deficit.

Investment transactions and income recognition

- Investment transactions are accounted for on the trade date
- Realized gains and losses on investment sales and unrealized appreciation or depreciation in investment values are calculated on the average cost basis
- Written call option income received is deferred and included in investments on the statements of financial position. Realized capital gains or losses are recognized in the statements of operations when options are exercised, expire or are closed out
- Deferred gains and losses on options are recognized in investments and as a component of net unrealized appreciation (depreciation) in the statements of operations
- Dividend income is recognized on the ex-dividend date. Interest income is recognized when earned
- Net realized gains and losses on investments include net realized gains or losses from foreign currency changes

Redeemable Preferred shares

In accordance with their terms, each redeemable Preferred share is valued at the lesser of: (i) \$10.00; and (ii) the Net Assets of the Company divided by the number of Preferred shares outstanding. The Net Assets are equal to the difference between the aggregate value of the assets of the Company and the aggregate value of its liabilities, excluding Preferred shares of the Company.

Translation of foreign currencies

The fair value of investments and other assets and liabilities in foreign currencies are translated into the Company's functional currency at the rates of exchange prevailing at the year-end date. Purchases and sales of investments, income and expenses are translated at the rates of exchange prevailing on the respective dates of such transactions.

Other Assets and Liabilities

Other assets are designated as loans and receivables and recorded at cost or amortized cost. Similarly, other liabilities are designated as financial liabilities and reported at cost or amortized cost. Cost or amortized cost approximates fair value for these assets and liabilities due to their short-term nature

FINANCIAL 15 SPLIT CORP. II
NOTES TO FINANCIAL STATEMENTSFOR THE SIX MONTH PERIOD ENDED **MAY 31, 2011 AND 2010 (UNAUDITED)**

3. Management of Risk of Financial Instruments

CICA Handbook – Accounting Section 3862, Financial Instruments–Disclosures (“Section 3862”) requires disclosure about the inputs to fair value measurements, including the classification with a hierarchy that prioritizes the inputs to fair value measurement. The three levels of the fair value hierarchy are:

- Level 1 - Unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 - Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and
- Level 3 - Inputs that are not based on observable market data.

The following table illustrates the classification of the Company’s financial instruments within the fair value hierarchy as at May 30, 2011 and November 30, 2010:

Financial assets at fair value as at May 31, 2011

	Level 1	Level 2	Level 3	Total
Equities	\$77,560,877	-	-	\$77,560,877
Options	<u>(\$87,985)</u>	<u>-</u>	<u>-</u>	<u>(\$87,985)</u>
	\$77,472,892	-	-	\$77,472,892

Financial assets at fair value as at November 30, 2010

	Level 1	Level 2	Level 3	Total
Equities	\$72,393,576	-	-	\$72,393,576
Options	<u>(\$206,501)</u>	<u>-</u>	<u>-</u>	<u>(\$206,501)</u>
	\$72,187,075	-	-	\$72,187,075

The Company’s investment activities expose it to a variety of financial risks: market risk (including price risk, interest rate risk and currency risk), credit risk and liquidity risk.

Any sensitivity analysis presented below may differ from actual results and the difference could be material.

Market Price Risk

All securities investments present a risk of loss of capital. The 15 core stock holdings were selected because of their long term history of above average market price appreciation and dividend growth. These Portfolio companies were selected from the financial services indices of the S&P/TSX 60 and S&P 100 and are among the largest financial services companies in North America.

The market price risk is affected by three main components: price movements, interest rate risk and foreign currency movements.

Price risk

The Investment Manager manages market price risk by limiting investment in any one Portfolio company to no more than 10% of the net assets of the Company at the time of purchase. In addition, the supplemental covered call writing program which generates an additional stream of income to the portfolio may also help mitigate against market price declines during years in which a particular Portfolio company has a covered call option written against that position.

FINANCIAL 15 SPLIT CORP. II

NOTES TO FINANCIAL STATEMENTS

FOR THE SIX MONTH PERIOD ENDED MAY 31, 2011 AND 2010 (UNAUDITED)

Since the 15 portfolio companies (10 Canadian and 5 U.S. core holdings) are significant components of their corresponding financial services index, it would be reasonable to expect that the Company's Portfolio will exhibit market price movements that are reflective and generally highly correlated with those particular securities and to a lesser extent with the price movements of the S&P/TSX financial services index and the S&P US financial services index based on the underlying composition of the Portfolio.

A 10% increase/decrease in the Portfolio would currently increase/decrease Net Assets of the Company by \$7,747,189 (November 30, 2010-\$7,218,708).

Interest rate risk

The majority of the Company's financial assets and liabilities are non interest bearing. As a result, the Company is not subject to significant amounts of risk due to fluctuations in the prevailing levels of market interest rates and considers interest rate risk insignificant (consistent with previous period).

Currency risk

Five of the 15 core financial services Companies are US financial services Companies that are listed on the New York stock exchange and trade in US dollars. As at May 31, 2011, 34.7% (November 30, 2010-30.7%) of the Net Assets are invested in US dollar denominated assets which includes U.S. dollar cash. As a result, the Company's Net Assets will be affected by changes in the U.S. dollar relative to the Canadian dollar which is the functional currency of the Company. The Company has not entered into currency hedging contracts. As a result, if the Canadian dollar appreciated/depreciated by 5% against the US dollar, the Net Assets of the Company would currently decrease/increase by approximately \$1,468,112 (November 30, 2010-\$1,274,281).

Other risks

Credit risk

Credit risk is defined as the risk that a counterparty will be unable to pay amounts in full when due. All of the Company's transactions are in listed securities and options and are settled and paid for using approved brokers. The risk of default is considered minimal as delivery of securities sold is only made once the broker has received payment (consistent with previous period). Payment is made on purchase once the securities have been received by the broker.

Liquidity risk

Liquidity risk is the risk that the Company may not be able to settle or meet its obligations on time or at a reasonable price. The Company is exposed to liquidity risk primarily through its monthly and annual retractions of Class A shares and Preferred shares. The Company receives adequate notice for all retraction requests. The Company's Portfolio is invested in highly liquid large capitalization investments that trade on the Toronto Stock Exchange ("TSX") and New York Stock Exchange ("NYSE") (consistent with previous period). All Class A shares and Preferred shares outstanding are redeemable on demand but are scheduled to be redeemed upon termination of the Company on December 1, 2014. All other financial liabilities are payable within three months from the end of the year.

FINANCIAL 15 SPLIT CORP. II

NOTES TO FINANCIAL STATEMENTS

FOR THE SIX MONTH PERIOD ENDED MAY 31, 2011 AND 2010 (UNAUDITED)

Concentration risk

The Company's 15 core holdings are concentrated in the financial services sector and as such will be exposed to the specific factors that affect this sector. An individual Portfolio holding may represent no more than 10% of the Net Asset Value of the Company at the time of purchase (consistent with previous period).

4. Preferred shares

The Company is authorized to issue an unlimited number of Preferred shares.

<u>Issued and outstanding</u>	May 31, 2011	May 31, 2010
5,688,250 Preferred shares (May 31, 2010-5,688,250)	<u>\$56,882,500</u>	<u>\$56,882,500</u>
<u>Preferred share transactions</u>		
Beginning of period	5,688,250	5,688,250
Redemptions during the period	<u>-</u>	<u>-</u>
End of period	5,688,250	5,688,250

Preferred shares were issued at \$10 per share.

Preferred shares are entitled to fixed, cumulative monthly cash dividends of \$0.04375 per Preferred share. All Preferred shares outstanding on December 1, 2014 will be redeemed by the Company on that date. The Preferred shares have been presented as liabilities in the financial statements.

Preferred shares trade under the symbol "FFN.PR.A" on the TSX. Preferred shares trading price on the TSX was \$10.23 as at May 31, 2011 (November 30, 2010-\$10.06). Preferred shares may be surrendered at any time for retraction at specified retraction amounts, but will be retracted only on the last day of each month. Shareholders who concurrently retract a Preferred share and a Class A share (together, a "unit") in the month of October in each year will be entitled to receive an amount equal to the Net Asset Value per unit calculated on the last day of October. Preferred shares retracted in any other month will receive a retraction price based on a discounted specified retraction formula. Under the terms of a Recirculation Agreement, the Company may, but is not obligated to, require the Recirculation Agent to use its best efforts to find purchasers for any Preferred shares or Class A shares tendered for retraction.

The Preferred shares rank in priority to the Class A shares with respect to the payment of dividends. Preferred shares rank in priority to the Class A shares upon termination of the Company.

5. Class A shares and Class B shares

Authorized

An unlimited number of Class A shares
1,000 Class B shares

<u>Issued and outstanding</u>	May 31, 2011	May 31, 2010
5,688,250 Class A shares (May 31, 2010-5,688,250)	\$78,074,532	\$78,074,532
1,000 Class B shares	<u>\$1,000</u>	<u>\$1,000</u>
	<u>\$78,075,532</u>	<u>\$78,075,532</u>
<u>Class A share transactions</u>		
Beginning of period	5,688,250	5,688,250
Redemptions during the period	<u>-</u>	<u>-</u>
End of period	5,688,250	5,688,250

FINANCIAL 15 SPLIT CORP. II

NOTES TO FINANCIAL STATEMENTS

FOR THE SIX MONTH PERIOD ENDED MAY 31, 2011 AND 2010 (UNAUDITED)

Class A shares were issued at \$15 per share. Class A share distributions are targeted at \$0.10 per month. All Class A shares outstanding on December 1, 2014 will be redeemed by the Company on that date. Class A shares trade under the symbol "FFN" on the TSX. Class A shares trading price on the TSX was \$5.07 as at May 31, 2011 (November 30, 2010-\$4.10). Class A shares may be surrendered at any time for retraction at specified retraction amounts, but will be retracted only on the last day of each month. Shareholders who concurrently retract a Class A share and a Preferred share (together, a "unit") in the month of October in each year will be entitled to receive an amount equal to the Net Asset Value per unit calculated on the last day of October. Class A shares retracted in any other month will receive a retraction price based on a discounted specified retraction formula. Under the terms of a Recirculation Agreement, the Company may, but is not obligated to, require the Recirculation Agent to use its best efforts to find purchasers for any Preferred shares or Class A shares tendered for retraction.

The Preferred shares rank in priority to the Class A shares with respect to the payment of dividends. Upon the termination of the Company, Class A shareholders will receive an amount equal to the Net Asset Value per unit less \$10 (the redemption value of the Preferred shares).

The holders of Class B shares are not entitled to receive dividends. The Class B shares are retractable at a price of \$1.00 per share. Class B shareholders are entitled to one vote per share. On September 3, 2004, the Company issued 1,000 Class B shares to Quadravest Capital Management Inc., the Company's investment manager, for cash consideration of \$1,000.

The Deficit in the Statement of Financial Position includes contributed surplus of \$6,837,758 (May 31, 2010-\$6,837,758) in connection with amounts paid on the retractions of Class A shares. Contributed surplus arises when the amount of the retraction allocated to the Class A shares is less than the average cost of capital per share of the Class A shares.

6. Expenses

The Company is responsible for all expenses incurred in connection with the operation and administration of the Company, including, but not limited to, ongoing custodian, transfer agent, legal and audit expenses.

Pursuant to the administration agreement, Quadravest is entitled to an administration fee payable monthly in arrears at an annual rate of 0.10% of the Net Assets of the Company, which includes the outstanding Preferred shares, calculated as at each monthly valuation date and an amount equal to the service fee payable to dealers on the Class A shares at a rate of 0.50% per annum. No service fee will be paid in any calendar quarter if regular dividends are not paid to holders of Class A shares in respect of each month in such calendar quarter.

Pursuant to the terms of the investment management agreement, Quadravest is entitled to a base management fee payable in arrears at an annual rate equal to 0.65% of the Net Assets of the Company, which include the outstanding Preferred shares, calculated as at each monthly valuation date. In addition, Quadravest is entitled to receive a performance fee subject to the achievement of certain pre-established total return thresholds. No performance fees were paid in 2011 or 2010.

Total management fees of \$324,617 (May 31, 2010- \$328,001), incurred during the period, include the administration fee and base management fee. No performance fees were paid in 2011 or 2010.

Total brokerage commissions paid during the period by the Company for its Portfolio transactions was \$16,327 (May 31, 2010-\$14,616).

FINANCIAL 15 SPLIT CORP. II

NOTES TO FINANCIAL STATEMENTS

FOR THE SIX MONTH PERIOD ENDED MAY 31, 2011 AND 2010 (UNAUDITED)

7. Distributions

The Company's investment objectives are to provide steady monthly distributions to both the Preferred and Class A shareholders while returning the original issue price to each shareholder on the termination date of the Company on December 1, 2014.

Distributions per share were as follows:

	May 31, 2011	May 31, 2010
Preferred shares	\$0.2625	\$0.2625
Class A shares	\$0.40	\$0.50

8. Capital Management

The Company considers its capital to consist of Class A, Class B and Preferred shares.

The Company's objectives in managing its capital are:

- i) to provide holders of Preferred shares with fixed cumulative preferential monthly cash dividends in an amount of \$0.04375 per Preferred share to yield 5.25% per annum on the original issue price and to return the original issue price to their holders on December 1, 2014; and
- ii) to provide holders of Class A shares with regular monthly cash distribution targeted to be \$0.10 per Class A share to yield 8.0% on the original issue price and return the original issue price to their holders on December 1, 2014.

In order to manage its capital structure, the Company may adjust the amount of dividends paid to shareholders or return capital to shareholders.

9. Income Taxes

The Company is a mutual fund corporation as defined in the Income Tax Act (Canada) (the "Act") and is subject to tax in respect of its net realized capital gains. This tax is refundable in certain circumstances. Also, the Company is generally subject to a tax of 33-1/3% under Part IV of the Act on taxable dividends received in the year. This tax is fully refundable upon payment of sufficient dividends.

The Company is also a financial intermediary corporation as defined in the Act and, as such, is not subject to tax under Part IV.1 of the Act on dividends received nor is it generally liable to tax under Part VI.1 on dividends paid on taxable preferred shares.

Temporary differences between the carrying value of assets and liabilities for accounting and income tax purposes give rise to future income tax assets and liabilities. When the market value of a security in the Company exceeds its cost base, a future income tax liability arises. As capital gains taxes payable by the Company are refundable under the provisions of the Income Tax Act (Canada), the future tax liability is offset by these future refundable taxes. If the cost base exceeds the market value of the security, a future income tax asset is generated. A full valuation allowance is taken to offset this asset given the uncertainty that such future assets will ultimately be realized. Future income tax liabilities or assets are calculated using substantively enacted tax rates expected to apply in the period that the temporary differences are expected to reverse.

The Company has estimated accumulated non capital losses for tax purposes of \$5,094,282 (May 31, 2010-\$4,351,907) that are available to lower taxable income in future years if required and expire after the scheduled termination date of the Company on December 1, 2014. The Company also has estimated accumulated capital losses for tax purposes of \$4,792,092 (May 31, 2010-\$2,928,447) which may be used to lower future capital gains if required.

FINANCIAL 15 SPLIT CORP. II**NOTES TO FINANCIAL STATEMENTS****FOR THE SIX MONTH PERIOD ENDED MAY 31, 2011 AND 2010 (UNAUDITED)**

10. Comparative Financial Statements

Certain 2010 comparative figures have been reclassified from statements previously presented to conform to the presentation of the 2011 financial statements.

QUADRVEST CAPITAL MANAGEMENT INC.

Quadravest Capital Management Inc. was formed in 1997 and is focused on the creation and management of enhanced yield products for retail investors. The investment strategy combines fundamental based equity investing with covered call writing. Guided by four key principles, Quadravest sets attainable investment objectives that allow the team to stay focused on a long-term investment strategy.

The four principles – innovation in financial products, discipline in investment management, solid results for investors, and excellence in client service – form the foundation of Quadravest. Each member of the firm’s tight-knit team is committed to upholding these principles, ensuring a coherence and dedication that is unique to the Company.

Quadravest has raised over \$2.5 billion in initial public offerings.
