

MAY 31 | **FINANCIAL 15 SPLIT CORP.**
2008 | **SEMI-ANNUAL REPORT**
(UNAUDITED)

This report may contain forward-looking statements about the Company. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as “expects”, “anticipates”, “intends”, “plans”, “believes”, “estimates” or negative versions thereof and similar expressions. In addition, any statement that may be made concerning future performance, strategies or prospects, and possible future Company action, is also forward-looking. Forward-looking statements are based on current expectations and projections about future events and are inherently subject to, among other things, risks, uncertainties and assumptions about the Company and economic factors.

Forward-looking statements are not guarantees of future performance, and actual events and results could differ materially from those expressed or implied in any forward-looking statements made by the Company. Any number of important factors could contribute to any divergence between what is anticipated and what actually occurs, including, but not limited to, general economic, political and market factors, interest and foreign exchange rates, global equity and capital markets, business competition, technology change, changes in government regulations, unexpected judicial or regulatory proceedings, and catastrophic events.

The above-mentioned list of important factors is not exhaustive. You should consider these and other factors carefully before making any investment decisions and you should avoid placing undue reliance on forward-looking statements. While the Company currently anticipates that subsequent events and developments may cause the Company’s views to change, the Company does not undertake to update any forward-looking statements.

FINANCIAL 15 SPLIT CORP.**SEMI-ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE****MAY 31, 2008**

This is the semi-annual Management Report of Fund Performance (MRFP) for the period ended May 31, 2008. This MRFP contains financial highlights but does not contain the complete financial statements of the Company. The semi-annual financial statements and accompanying notes are attached to this report.

Investors may also obtain a copy of the Company's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure by visiting our website at www.financial15.com or by writing to the Company at Investor Relations, Royal Trust Tower, 77 King Street West, P.O. Box 341, Toronto, Ontario, M5K 1K7.

These reports are available to view and download at www.financial15.com or www.sedar.com.

INVESTMENT OBJECTIVES AND STRATEGIES

Financial 15 Split Corp. invests primarily in a portfolio of commons shares, which will include each of the 15 financial services companies listed below:

Canadian issuers

Bank of Montreal
The Bank of Nova Scotia
Canadian Imperial Bank of Commerce
CI Financial
Great West Lifeco Inc.
Manulife Financial Corporation
National Bank of Canada
Royal Bank of Canada
Sun Life Financial Services of Canada Inc.
The Toronto-Dominion Bank

U.S. issuers

Bank of America Corp.
Citigroup Inc.
JP Morgan Chase & Co.
Merrill Lynch & Co., Inc.
Wells Fargo & Co.

The Company may also invest up to 15% of the Net Asset Value in equity securities of issuers other than the 15 financial services companies listed above. In order to supplement the dividends received on the Portfolio and to reduce risk, the Company will from time to time write covered call options in respect of some or all of the common shares in the portfolio.

The Company offers two types of shares:

Preferred Shares

The investment objectives with respect to the Preferred Shares are as follows:

1. To provide holders with fixed cumulative preferential monthly cash dividends in the amount of \$0.04375 per Preferred Share to yield 5.25% per annum on the original issue price; and
2. On or about December 1, 2015 (the termination date) to pay holders the original issue price (\$10) of the Preferred shares

Class A Shares

The investment objectives with respect to the Class A shares are as follows:

1. To provide holders with regular monthly cash dividends initially targeted to be \$0.10 per Class A share to yield 8% per annum on the original issue price; and
2. On or about December 1, 2015 (the termination date), to pay holders at least the original issue price of those shares (\$15).

RISK

The risks of investing in the Company remain as discussed in the Annual Information form dated February 21, 2008. In addition, Note 3 of the semi-annual financial statements ("Management of Risk") contains disclosure on specific types of risks related to the financial investments held by the Company.

RESULTS OF OPERATIONS

Overall financial markets continue to be adversely impacted by the confluence of record high commodity prices and the continuing credit related problems originating from the US sub prime lending market. These conditions have caused economic growth to slow considerably in both Canada and the United States while at the same time high commodity prices are beginning to lead to a marked increase in inflationary pressures. In particular, the dramatic increase in oil prices has become a large obstacle for economic recovery.

Through this difficult environment, the core holdings in the portfolio have been negatively impacted. The Company met its distribution objectives during the period, but the net asset value per unit declined to \$21.51 as at May 31, 2008. As at May 31, 2008, the Company's portfolio remained primarily invested in the 15 core financial services stocks as per the prospectus. The dividend income in the portfolio continues to be supplemented by a limited covered call writing program which provides some additional income to the portfolio.

DISTRIBUTIONS

Class A Shares - Distributions

Class A shareholders are entitled to receive regular monthly cash dividends initially targeted to be \$0.10 per Class A Share to yield 8.0% per annum on the original issue price. Distributions paid during the period include the regular distributions at the targeted rate for a total of 0.60 per share.

Cumulative Distributions since inception

Preferred Shares - Distributions

Preferred shareholders are entitled to fixed, cumulative preferential monthly cash dividends in the amount of \$0.04375 per Preferred Share to yield 5.25% per annum on the original issue price. Distributions paid during the period were at the fixed rate for a total of \$0.2625 per share.

Cumulative Distributions since inception

RECENT DEVELOPMENTS

Adoption of new accounting standards:

On December 1, 2007, the Company adopted the Canadian Institute of Chartered Accountants ("CICA") Section 3862, "Financial Instruments - Disclosures" of the CICA Handbook - Accounting ("Section 3862") and Section 3863, "Financial Instruments - Presentation" ("Section 3863"). These sections establish standards for the comprehensive disclosure and presentation requirements for financial instruments. The standards include new requirements to quantify certain risk exposures and to provide sensitivity analysis for certain risks (see Note 3 of the semi-annual financial statements).

Extension of the Termination Date of the Company:

At a special shareholders meeting held on July 23, 2008, Class A and Preferred shareholders approved the extension of the termination date of the Company from December 1, 2008 to December 1, 2015.

RELATED PARTY TRANSACTIONS

The Investment Manager and Quadravest Inc. (Manager) earn fees from the Company as described below in the Management Fees section.

MANAGEMENT FEES

The Investment Manager is entitled to a base management fee payable monthly in arrears at an annual rate equal to 0.65% of the Company's Net Asset Value calculated as at the last Valuation Date in each month.

The Manager is entitled to an administration fee payable monthly in arrears at an annual rate equal to 0.1% of the Company's Net Asset Value calculated as at the last Valuation Date in each month.

Total management fees of \$865,090 paid for the period ended May 31, 2008 include the base management fee and the administration fee. The base management fee was used by the Investment Manager to pay costs associated with the managing of the investment portfolio, providing investment analysis and recommendations, making investment decisions, and making brokerage arrangements for the purchase and sale of securities, including the covered call writing program. The administration fee was used to provide or arrange administrative services required by the Company, which includes all operational, financial accounting, shareholder reporting and regulatory reporting requirements.

FINANCIAL HIGHLIGHTS

The following tables show selected financial information about the Company and are intended to help you understand the Company's financial performance. This information is derived from the Company's semi-annual financial statements and previous annual audited financial statements. For May 31, 2008 and November 30, 2007, the Net Assets included in the Net Assets per unit table is from the Company's financial statements and calculated using bid prices while the Net Asset Value included in the Ratios/Supplemental data Table is for Transactional pricing purposes and calculated using closing prices (see Note 2 in the financial statements).

Net asset value per unit at end of period	21.51	25.72	28.39	26.88	24.56	23.81

(1) Net asset value per unit is the difference between the aggregate value of the assets of the Company and the aggregate value of the liabilities excluding the Preferred shares of the Company on that date divided by the number of units then outstanding

(2) Results for the period November 14, 2003 (inception) to November 30, 2003

(3) Initial net asset value per unit is after deducting all agents' fees and filing costs in connection with the initial public offering

(4) Total increase from operations is before the payment of Preferred and Class A share distributions and is calculated based on the weighted average number of units outstanding during the period

(5) Distributions to Preferred shares and Class A shares are based on the number of Preferred shares and Class A shares outstanding on the record date for each distribution and were paid in cash. Characterization of distributions is based on the tax treatment that is received by investors.

(1) Results for the period November 14, 2003 (inception) to November 30, 2003

(2) This information is provided as at May 31 or November 30, as applicable

(3) A separate base management expense ratio has been presented to reflect the normal operating expenses of the Company excluding the one time initial offering expenses and performance fees. Management expense ratio is based on total expenses for the stated period and is expressed as an annualized percentage of average net assets during the period

(4) Share issue expenses, representing all Agents' fees and other offering expenses are one time initial expenses connected with the launch of the Company or any subsequent secondary offering

(5) Performance fees occur in periods in which the total return per unit exceeds a pre established threshold

(6) The Company's portfolio turnover rate indicates how actively the Company's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Company buying and selling all of the securities in its portfolio once in the course of the year. The Company employs a covered call writing strategy which can cause the portfolio turnover rate to be higher than conventional mutual funds. The higher the Company's portfolio turnover rate in a year, the greater the trading costs payable by the Company in the year and the greater chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of the Company

(7) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of average net assets during the period.

PAST PERFORMANCE

The past performance of 1) the net asset value per unit (1 Preferred share and 1 Class A share); 2) the Preferred share on net asset value basis; and 3) the Class A share on a net asset value basis for the six month period ended May 31 and for each 12 month period ended November 30 since inception are presented in the bar charts below. Each bar in the chart reflects the change in percentage terms of how a Unit, a Preferred share or a Class A share would have increased or decreased during the applicable period. In respect to the charts displayed below, please note the following:

- The performance information shown assumes that all cash distributions made by the Company during the periods shown were reinvested in the applicable additional securities of the Company,
- The performance information does not take into account sales, redemption, distribution or other optional charges that would have reduced returns or performance; and,
- Past performance of the Company does not necessarily indicate how it will perform in the future.

FINANCIAL 15 SPLIT CORP.

NOTES TO FINANCIAL STATEMENTS

FOR THE SIX MONTH PERIOD ENDED MAY 31, 2008 AND 2007 (UNAUDITED)

1. Incorporation

Financial 15 Split Corp (the “Company”) is a mutual fund corporation established under the laws of the Province of Ontario on September 26, 2003 and began investment operations on November 14, 2003. The manager of the Company is Quadravest Inc. (the Manager) and the investment manager is Quadravest Capital Management Inc. (Quadravest). All shares outstanding on December 1, 2015 (the termination date of the Company as extended at the shareholders meeting held on July 23, 2008), will be redeemed by the Company on that date.

2. Summary of significant accounting policies

These financial statements, prepared in accordance with Canadian generally accepted accounting principles, (“GAAP”) include estimates and assumptions by management that affect the reported amount of assets, liabilities, income and expenses during the reporting periods. The following is a summary of the significant accounting policies followed by the Company. Actual results could differ from these estimates.

Adoption of new accounting standards

On December 1, 2007, the Company adopted the Canadian Institute of Chartered Accountants (“CICA”) Section 3862, “Financial Instruments - Disclosures” of the CICA Handbook - Accounting (“Section 3862”) and Section 3863, “Financial Instruments - Presentation” (“Section 3863”). These sections establish standards for the comprehensive disclosure and presentation requirements for financial instruments. The standards include new requirements to quantify certain risk exposures and to provide sensitivity analysis for certain risks.

Valuation of investments

Investments are categorized as held for trading in accordance with Section 3855. “Financial Instruments - Recognition and Measurement”.

Investments are recorded in the financial statements at their market values at the end of the period, determined as follows:

- Shares or other securities for which market quotations are readily available are valued at the closing bid price.
- Listed options are valued at closing bid prices as reported on recognized exchanges.

FINANCIAL 15 SPLIT CORP.**NOTES TO FINANCIAL STATEMENTS**FOR THE SIX MONTH PERIOD ENDED **MAY 31, 2008 AND 2007 (UNAUDITED)**

2. Summary of significant accounting policies (continued)

National Instrument 81-106, section 14.2, issued by the Canadian Securities Administrators (“CSA”) in 2005, requires the net asset value of an investment fund to be calculated in accordance with Canadian GAAP. The CSA has granted relief to investment funds from complying on a temporary basis with Section 3855, for the purposes of calculating and reporting net asset value (other than for financial reporting purposes) until September 30, 2008, to permit further review of the impact this pronouncement has on the redemption price of an investment fund (“Transactional”). Depending on the outcome of this review, the method by which net asset value is calculated as governed by Section 3855 may result in a change to the Transactional NAV on such date. In accordance with the relief granted by the CSA, a reconciliation of the net asset value calculated in accordance with Section 3855 of an investment fund (GAAP NAV) is required to be disclosed. The Company has applied this change on a retrospective basis. The reconciliation of the Company’s Transactional NAV (ie. based on last traded price of portfolio securities) and the GAAP NAV (ie. based on last bid price of portfolio securities) is presented in the following table:

	GAAP NAV	Difference	Transactional NAV
May 31, 2008	\$218,897,184	\$261,453	\$219,158,637

	GAAP NAV per unit	Difference	Transactional NAV per unit
May 31, 2008	\$21.51	\$0.03	\$21.54

Transaction costs

- Transaction costs, such as brokerage commissions, incurred in the purchase and sale of securities by the Company are recognized as an expense in the Statement of Operations and Retained Earnings (Deficit). Prior to December 1, 2006, the Company’s policy had been to add these expenses to the costs of securities purchased or deducted from the proceeds of sale. The transaction costs for investments held at May 31, 2008 is shown separately on the Statement of Portfolio Investments. Effective December 1, 2006, the Company adopted the new accounting policy retroactively, without restatement of prior periods. The adoption of the policy does not impact the Transactional NAV or the GAAP NAV.

FINANCIAL 15 SPLIT CORP.

NOTES TO FINANCIAL STATEMENTS

FOR THE SIX MONTH PERIOD ENDED MAY 31, 2008 AND 2007 (UNAUDITED)

Investment transactions and income recognition

- Investment transactions are accounted for on the trade date.
- Realized gains and losses on investment sales and unrealized appreciation or depreciation in investment values are calculated on the average cost basis.
- Option fees paid or received are deferred and included in investments on the statements of financial position. Realized capital gains or losses are recognized in the statements of operations when options are exercised, expire or are closed out.
- Deferred gains and losses on options are recognized in investments and as a component of net unrealized appreciation (depreciation) in the value of investments.
- Dividend income is recognized on the ex-dividend date. Interest income is recognized when earned.
- Net realized gains and losses on investments include net realized gains or losses from foreign currency changes.

3. Management of Financial Risk

The Company's investment activities expose it to a variety of financial risks: market risk (including price risk, interest rate risk and currency risk), credit risk and liquidity risk.

Any sensitivity analysis presented below may differ from actual results and the difference could be material.

Market Price Risk

All securities investments present a risk of loss of capital. The 15 core stock holdings were selected because of their long term history of above average market price appreciation and dividend growth. The Portfolio Companies were selected from the financial services indices of the S&P/TSX 60 index and S&P 100 index and are among the largest financial services companies in North America.

The market price risk is affected by three main components: price movements, interest rate risk and foreign currency movements.

Price risk

The Investment Manager manages market price risk by limiting investment in any one Portfolio company to no more than 10% of the net assets of the Company at the time of purchase. In addition, the supplemental covered call writing program which generates an additional stream of income to the portfolio may also help mitigate against market price declines during periods in which a particular Portfolio company has a covered call option written against that position.

Since the 15 Portfolio companies (10 Canadian and 5 U.S. core holdings) are significant components of their corresponding financial services index, it would be reasonable to expect that the Company's Portfolio will exhibit market price movements that are reflective and generally highly correlated with those particular securities and to a lesser extent with the price movements of the S&P/TSX financial services index and the S&P US financial services index based on the underlying composition of the portfolio.

A 1% increase /decrease in the Portfolio would currently increase/decrease net assets by \$ 2,137,690.

FINANCIAL 15 SPLIT CORP.**NOTES TO FINANCIAL STATEMENTS**FOR THE SIX MONTH PERIOD ENDED MAY 31, 2008 AND 2007 (UNAUDITED)

Interest rate risk

The majority of the Company's financial assets and liabilities are non interest bearing. As a result, the Company is not subject to significant amounts of risk due to fluctuations in the prevailing levels of market interest rates and considers interest rate risk insignificant.

Currency risk

Five of the 15 core financial services Companies are US financial services Companies that are listed on the New York stock exchange and trade in US dollars. As at May 31, 2008, 19.4 % of the net assets is invested in these US financial services stocks. As a result, the Company's net asset value will be affected by changes in the US dollar relative to the Canadian dollar which is the functional currency of the Company. The Company has not entered into currency hedging contracts. As a result, if the Canadian dollar appreciated/depreciated by 1% against the US dollar, the net assets of the Company would currently decrease/increase by approximately \$ 424,716.

Other risks**Credit risks**

Credit risk is defined as the risk that a counterparty will be unable to pay amounts in full when due. All of the Company's transactions are in listed securities and options and are settled and paid for using approved brokers. The risk of default is considered minimal as delivery of securities sold is only made once the broker has received payment. Payment is made on purchase once the securities have been received by the broker.

Liquidity risk

The Company pays monthly dividends and is subject to redemption requests from time to time. The Company's Portfolio is invested in highly liquid large capitalization investments that trade on the TSX and NYSE. As such, any requirement to raise cash beyond the Company's normal operating level can easily be satisfied through the sales of its portfolio holdings. The Company receives adequate notice for all redemption requests. The Company considers liquidity risk as low.

Concentration risk

The Company's 15 core holdings are concentrated in the financial services sector and as such will be exposed to the specific factors that affect this sector. An individual Portfolio holding may represent no more than 10% of the net asset value of the Company at the time of purchase.

Preferred shares were issued at \$10 per share.

Preferred shares are entitled to fixed, cumulative monthly cash dividends of \$0.04375 per Preferred share. All Preferred shares outstanding on December 1, 2008 will be redeemed by the Company on that date. For accounting purposes, the Preferred shares have been presented as liabilities in the financial statements in accordance with Section 3861 of the CICA Handbook.

Preferred shares trade under the symbol "FTN.PR.A" on the Toronto Stock Exchange (TSX). Preferred shares trading price on the TSX was \$10.05 as at May 31, 2008 (May 31, 2007-\$10.13). Preferred shares may be surrendered at any time for retraction at specified retraction amounts, but will be retracted only on the last day of each month. Shareholders who concurrently retract a Preferred share and a Class A share (together, a "unit") in the month of October in each year will be entitled to receive an amount equal to the transactional net asset value per unit on the last day of October. Preferred shares retracted in any other month will receive a retraction price based on a discounted specified retraction formula. Under the terms of a Recirculation Agreement, the Company may, but is not obligated to, require the Recirculation Agent to use its best efforts to find purchasers for any Preferred shares or Class A shares tendered for retraction.

The Preferred shares rank in priority to the Class A shares with respect to the payment of dividends. Preferred shares rank in priority to the Class A shares upon termination of the Company.

NOTES TO FINANCIAL STATEMENTS

FOR THE SIX MONTH PERIOD ENDED MAY 31, 2008 AND 2007 (UNAUDITED)

Class A shares were issued at \$15 per share. Class A share distributions are targeted at \$0.10 per month. All Class A shares outstanding on December 1, 2008 will be redeemed by the Company on that date.

Class A shares trade under the symbol "FTN" on the Toronto Stock Exchange (TSX). Class A shares trading price on the TSX was \$10.85 as at May 31, 2008 (May 31, 2007-\$17.82). Class A shares may be surrendered at any time for retraction at specified retraction amounts, but will be retracted only on the last day of each month. Shareholders who concurrently retract a Class A share and a Preferred share (together, a "unit") in the month of October in each year will be entitled to receive an amount equal to the transactional net asset value per unit on the last day of October. Class A shares retracted in any other month will receive a retraction price based on a discounted specified retraction formula. Under the terms of a Recirculation Agreement, the Company may, but is not obligated to, require the Recirculation Agent to use its best efforts to find purchasers for any Preferred shares or Class A shares tendered for retraction.

The Preferred shares rank in priority to the Class A shares with respect to the payment of dividends. Upon the termination of the Company, Class A shareholders will receive an amount equal to the transactional net asset value per unit less \$10 (the redemption value of the Preferred shares).

The holders of Class B shares are not entitled to receive dividends. The Class B shares are retractable at a price of \$1.00 per share. Class B shareholders are entitled to one vote per share. On September 26, 2003, the Company issued 1,000 Class B shares to QuadraVest Capital Management Inc., the Company's investment manager, for cash consideration of \$1,000.

6. Expenses

The Company is responsible for all expenses incurred in connection with the operation and administration of the Company, including, but not limited to, ongoing custodian, transfer agent, legal and audit expenses.

Pursuant to the administration agreement, the Manager is entitled to an administration fee payable monthly in arrears at an annual rate of 0.10% of the transactional net assets of the Company, which includes the outstanding Preferred shares, calculated as at each monthly valuation date and an amount equal to the service fee payable to dealers on the Class A shares at a rate of 0.50% per annum.

Pursuant to the terms of the investment management agreement, QuadraVest is entitled to a base management fee payable in arrears at an annual rate equal to 0.65% of the transactional net assets of the Company, which include the outstanding Preferred shares, calculated as at each monthly valuation date. In addition, QuadraVest is entitled to receive a performance fee subject to the achievement of certain pre-established total return thresholds.

Total management fees of \$865,090 (May 31, 2007-\$1,190,102), incurred during the period, include the administration fee and base management fee. No performance fees were paid in 2008 or 2007.

Total brokerage commissions paid during the period by the Company for its portfolio transactions was \$13,071 (2007-\$49,431).
